Y COMPETITIVIDAD

Welcome

Dear colleague,

On behalf of the Organising Committee, it is our pleasure to invite you to the International Symposium on Fusion Nuclear Technology (ISFNT), that will be held in Barcelona, Spain from 16-20 September 2013.

The ISFNT has been recognized as one of the main international gathering for fusion energy and technology development since it was conceived. The main goal of the ISFNT is fostering collaborations among scientists and engineers working on the many technical disciplines of the field and to exploit synergies that have arisen in order to identify means to resolve the key issues in Fusion Nuclear Science and Technology (FNST).

The symposium focuses on both near-term fusion devices and long-term reactor technologies. Contributions related to the science, engineering, experiments, facilities, modelling, analysis, design and safety are encouraged.

The International Symposium on Fusion Nuclear Technology-11 will continue its recognized tradition of excellence and stimulate the interest of its participants.

We look forward to seeing you in Barcelona, September 2013!

Yours sincerely,

Why should you sponsor?

A tailored sponsorship package of the Congress is a cost-effective opportunity to reach a large number of delegates within your target market.

- A presence at the Congress is your organisation's opportunity to leverage five days of unparalleled access to a wide potential client base, to inform them about your products and services and build long-term relationships.
- Business to Business (B2B) and Customer to Business (C2B) meetings will be organized during the Symposium. Further information will be available on the website.
- Exhibiting is a proven tactic for marketing your brand: it combines the reach of magazine advertising with the power of direct mail and persuasion of face-to-face meeting.
- Congress participants are keen to improve their scientific knowledge. Aligning your company with this powerful educational experience demonstrates your commitment to assisting their development at a deeply personal level.
- Your Company will benefit significantly from exposure to an interested, relevant and influential audience in an informal yet informative environment away from the competition of everyday distractions.
- An International Industrial Fusion Business Forum will be held in combination with the ISFNT-11, allowing the main actors of the nuclear fusion, from research institutions up to industry, to interact in a dedicated Industrial Workshop and an Industrial Exhibition.
- The Congress will assist you in achieving strategic goals by providing you with direct exposure to your target market.
- Be informed and identify the marketing strategies being implemented by your competition.

Key benefits to early commitment

Aligning your company early will ensure:

- Maximum exposure for your company and increased opportunities to access not only the registered delegates but anyone receiving Congress printed or electronic marketing information.
- First choice of sponsorship opportunity to ensure alignment with your marketing aims.
