Welcome Letter

Dear Madam, Dear Sir,

On behalf of the International Organising Committee, it is our pleasure to invite you to support the 28th Symposium on Fusion Technology (SOFT2014) that will be held in San Sebastián, Spain, from 29th September to 3rd October 2014.

SOFT is the largest conference on this topic in Europe and likely in the world. It brings together around 800 scientists and engineers working on the development of this new source of energy. The present symposium is being organised by Spanish research centre CIEMAT.

As SOFT organisers we pay capital attention to the involvement of Industry and we are aware that companies need to perceive a real value in return of their effort in participating to the event. In this respect, SOFT2014 will provide your company with valuable advantages:

- Unique access to the international fusion technology community, to inform them about your products and services and build long-term relationship. The stands will be strategically located to maximize the interaction with conference attendants.
- Attendance of public and private research authorities and labs. Thematic workshops dedicated to the main fusion challenges will bring you the opportunity to interact with fusion stakeholders: IO, F4E and the most important laboratories will also convey you first hand information on the fusion program.
- An industrial info-day, covering both long and short-term objectives, will be held during the conference, allowing the main actors of the nuclear fusion community, from research institutions up to industry, to interact.
- The industrial exhibition will facilitate you to develop business relationships; SME and R&D centres will have the opportunity of exhibiting at a special discount rate.
- "Business to business" (B2B) and "Customer to Business" (C2B) meetings will be organized during the symposium. Further information will appear on the website.

An early alignment of your company will ensure:

- Maximum visibility for your company and increased opportunities to access registered delegates and distribute among them printed or electronic marketing information.
- First choice of sponsorship possibilities.

We look forward to seeing you at the SOFT2014 Conference in San Sebastián!

Yours sincerely,

Joaquín Sánchez

Chairman of the International Organizing Committee
